Symposium A	Topics
Functional Materials	A1 Materials for energy and environment
	A2 Bio-inspired materials and materials for healthcare applications
	A3 Magnetic, electric and photonic functional materials
	A4 Carbon based materials
	A5 Paper electronics

Symposium B	Topics
Structural Materials	B1 Advances in ceramics, concrete, building materials
	B2 Advances in metals and alloys
	B3 Advances in polymers
	B4 Advances in composites and hybrid materials

Symposium C	Topics
Materials Processing, characterization and modelling	C1 Processing technologies (including additive manufacturing)
	C2 Coatings and interfaces
	C3 recycling
	C4 Materials characterization (including at nanoscale)
	C5 Materials Modelling

Special Session	Topics
Cultural Heritage	CH Advances in Cultural Heritage - Science, Materials and Techniques
